CLASSIFICATION: 12 26 00 Furnishings: Interior Daylighting Devices

PRODUCT DESCRIPTION: The SolaMaster Series is a versatile line of tubular daylighting devices that capture natural light at the rooftop and transfer it into building interiors where daylighting has rarely been possible. The SolaMaster 330 DS is designed to maximize light output at any time of day. It effectively captures low-angle rays in the morning and late afternoon, and collects high-angle rays at midday for powerful performance. It is ideal for lighting expansive spaces with dropped ceilings where variances in light levels don’t create an issue for occupants. This HPD covers the basic configuration of the SolaMaster 330 DS Closed Ceiling Daylighting System; additional options are listed in Section 4: Accessories.

Section 1: Summary

Basic Method / Product Threshold

CONTENT INVENTORY

Inventory Reporting Format
- Nested Materials Method
- Basic Method

Threshold Disclosed Per
- Material
- Product

Threshold level
- 100 ppm
- 1,000 ppm
- Per GHS SDS
- Per OSHA MSDS
- Other

Residuals/Impurities
- Considered
- Partially Considered
- Not Considered

All Substances Above the Threshold Indicated Are:
- Characterized
  - Yes Ex/SC
  - Yes
  - No % weight and role provided for all substances.

Screened
- Yes Ex/SC
- Yes
- No
One or more substances not screened using Priority Hazard Lists with results disclosed and/ or one or more Special Condition did not follow guidance.

Identified
- Yes Ex/SC
- Yes
- No
One or more substances not disclosed by Name (Specific or Generic) and Identifier and/ or one or more Special Condition did not follow guidance.

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

INVENTORY AND SCREENING NOTES:
This HPD was completed in accordance with the HPD Standard version 2.1.1. More than 98% of substances present in this product have been characterized and screened for hazards. Less than 2% of the finished product system consists of materials that are proprietary to our suppliers, for which efforts to identify and screen the substances are ongoing. This HPD will be republished when all substances present at >1000 ppm of the finished product have been screened for hazards.

VOLATILE ORGANIC COMPOUND (VOC) CONTENT
VOC Content data is not applicable for this product category.

CERTIFICATIONS AND COMPLIANCE
VOC emissions: CDPH Standard Method – Not tested
CONSISTENCY WITH OTHER PROGRAMS
No pre-checks completed or disclosed.
### Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.1, available on the HPDC website at: [www.hpd-collaborative.org/hpd-2-1-standard](http://www.hpd-collaborative.org/hpd-2-1-standard)

**SOLAMASTER 330 DS CLOSED CEILING DAYLIGHTING SYSTEM**

**PRODUCT THRESHOLD:** 1000 ppm  
**RESIDUALS AND IMPURITIES CONSIDERED:** Yes

**RESIDUALS AND IMPURITIES NOTES:** Residuals and impurities were “Considered”, as outlined in Emerging Best Practices. Residuals or impurities with the potential to be present at or above the Content Inventory Threshold indicated that return a GS score of BM-1, LT-1, LT-P1 or NoGS have been disclosed, based on information provided in supplier disclosure letters, supplier SDS, and as predicted by process chemistry (Pharos CML).

**OTHER PRODUCT NOTES:** Substances listed are representative of the basic configuration of the SolaMaster 330 DS Closed Ceiling Daylighting System. Optional components are listed in Section 4: Accessories.

Acrylic Plastic. Other CASRN may include: 9008-29-1 [NoGS | NO].

Includes average 17% Post-Consumer recycled content. This substance is considered essentially inert for the purposes of Pharos toxics scoring (Pharos CML). Supplier SDS provides the following composition: >95% Iron [7439-89-6; LT-P1]; <2% Manganese [7439-96-5; LT-P1]; <1% Silicon [7440-21-3; LT-UNK]; <0.3% Aluminum [7429-90-5; LT-P1]; <0.3% Carbon [7440-44-0; LT-UNK]; <0.3% Molybdenum [7439-98-7; LT-UNK]; <0.25% Copper [7440-50-8; LT-UNK]; <0.15% Nickel [7440-02-0; LT-1]; <0.15% Chromium [7440-47-3; LT-P1]; <0.15% Phosphorus [7723-14-0; BM-2].

</tr>
</tbody>
</table>
Optional Extension Tubes can be added in increments of 24" or 48" for long runs (up to 50 feet) without sacrificing performance. Constructed of Aluminum coated with Solatube's proprietary Spectralight Infinity coating, which has the highest reflectivity in the world for the brightest, purest light. Please contact manufacturer if more information is required.

### THERMAL INSULATION PANEL

**HPD URL:** No HPD available

**CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES:**

Optional Thermal Insulation Panel provides unmatched thermal performance. Two climate control discs paired with polycarbonate ring prevent conductive and convective heat transfer. Spectralight® Infinity material inside ring maximizes light transfer. Please contact manufacturer if more information is required.

### DAYLIGHT DIMMER

**HPD URL:** No HPD available

**CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES:**

Optional Daylight Dimmer uses a patented butterfly baffle and a convenient wall-mounted switch to allow for simple and easy adjustments to room daylight illumination levels. Constructed primarily of ABS Acrylic and Aluminum. Please contact manufacturer if more information is required.

### DAYLIGHT DIMMER SWITCH KIT

**HPD URL:** No HPD available

**CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES:**

Optional Daylight Dimmer Switch Kit includes a Double-Pole Double-Throw (DPDT) switch, wall plate and 15 feet of cable. One switch can control multiple Daylight Dimmers simultaneously. The optional Daylight Dimmer allows for simple and easy adjustments to room daylight levels. Please contact manufacturer if more information is required.

### METAL ROOF INSTALLATION KIT

**HPD URL:** No HPD available

**CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES:**

Used for installation of Metal Roof Flashing. Please contact manufacturer if more information required.

### WIRE SUSPENSION KIT

**HPD URL:** No HPD available

**CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES:**

Optional Wire Suspension Kit for use when additional bracing to the structure is required. Constructed of galvanized steel. Please contact manufacturer if more information is required.

### SECONDARY DIFFUSER

**HPD URL:** No HPD available

**CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES:**

Optional Secondary Diffuser is used to eliminate unwanted glare or to reduce light output. Constructed of acrylic. Please contact manufacturer for more information if required.

### SECURITY BAR

**HPD URL:** No HPD available

**CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES:**

Optional Security Bar inserts into the flashing turret across the diameter of the opening. The stainless steel bar is fastened using rivets and prohibits entry through the dome. Please contact manufacturer for more information if required.
Solatube products are engineered to reduce environmental impacts while providing energy-efficient lighting that nurtures building occupants. By utilizing sustainable natural daylight, our systems eliminate the need for electric lights during the day, as well as the utility needed to generate that power. This minimizes a building's carbon footprint by reducing environmental CO2 emissions. From a financial perspective, Solatube Daylighting Systems make sense because they are cost-effective and reduce maintenance costs associated with electric lighting. In fact, they often have lower installation costs than other fenestration products. The end result is high-performance, eco-friendly commercial lighting at a price that fits your budget.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
